

100V 6.5 INCH FIREPROOF CEILING SPEAKER

BP-PA-SP6W-EN

FEATURES

- Adopts the fashionable thin-edge plane big cylinder and the carbon alloy aluminum mesh design
- With the RAL white coating so as to integrate with any indoor place perfectly.
- Equipped with a 6.5" unit, full-range designed loudspeaker
- With magnetic circuit encapsulated with special engineering plastic process
- Equipped with fireproof Hood, enhance the protection of electric cable connection terminal.

TECHNICAL SPECIFICATION

Model: BP-PA-SP6W-EN	
Ways / Speakers / Type	1-way, double cone full range Ø156mm, 100V system
Transformer	6W
In axis frequency response (±7dB)	90-18000Hz
Sensitivity (@1m, 1W)	91 dB SPL (200Hz-10kHz pink noise)
Coverage angle 1kHz (HxV)	180°
SPL max (@1m, Pmax)	99dB (200Hz-10kHz pink noise)
Nominal power	6W
Impedance at 1000Hz	180Ω (6W)
Dimensions	Ø190mm-P=108mm
Hole diameter	Ø 168-172mm
Weight	1.0Kg
Material	Flame retarding ABS
Connections	Ceramic connector and thermal fuse
