

Non-Addressable DC repeater panel

HYU-FA-CFP001-R

Key Features

- Up to 8 detection zones can be displayed and controlled
- Clear alarm zone LED indicators, with a single indicator for Fault, Disable and Test Condition indication
- Recessed mounting enclosure
- Powered from the control and indicating equipment DC 24V supply or an external supply
- Up to 4 repeater panels can be connected to a single control panel
- Easy installation

Specifications

Model	HYU-FA-CFP001-R
Operating voltage	DC (21 ~ 28) V
Quiescent current	30 mA @ DC 28V
Terminal wiring	(0.4 ~ 2.5) mm ²
Operating Temperature	-5°C~ +40°C
Operating Humidity	(0 ~ 95) % RH, non-condensing
Storage temperature	-25°C~ +80°C
Storage humidity	(0 ~ 98) % RH, non-condensing
Dimensions (H x W x D)	180 x 260 x 73mm
Weight (excluding batteries)	1.0kg
