

WIRELESS RECEIVER

BP-BZE-8Z

SPECIFICATION

Model: BP-BZE-8Z	
Technical Parameters	
Operating Voltage	DC9 ~ 16V
Working frequency	433/868/915MHz
Transmission power	+20dbm
Receiving sensitivity	-114dBm, DR=10kbps DEV=5KHz@433.92MHz
Communication distance	500m (Open area)
Input	Single receiver supports 8 wireless inputs
Output	Single receiver supports 8 relay outputs, with optional NO and NC options
Output type	Alarm, Tamper, Low voltage
Digital display	Receiver supports it, but the extender does not support it
Size	98mm*104mm*50mm
