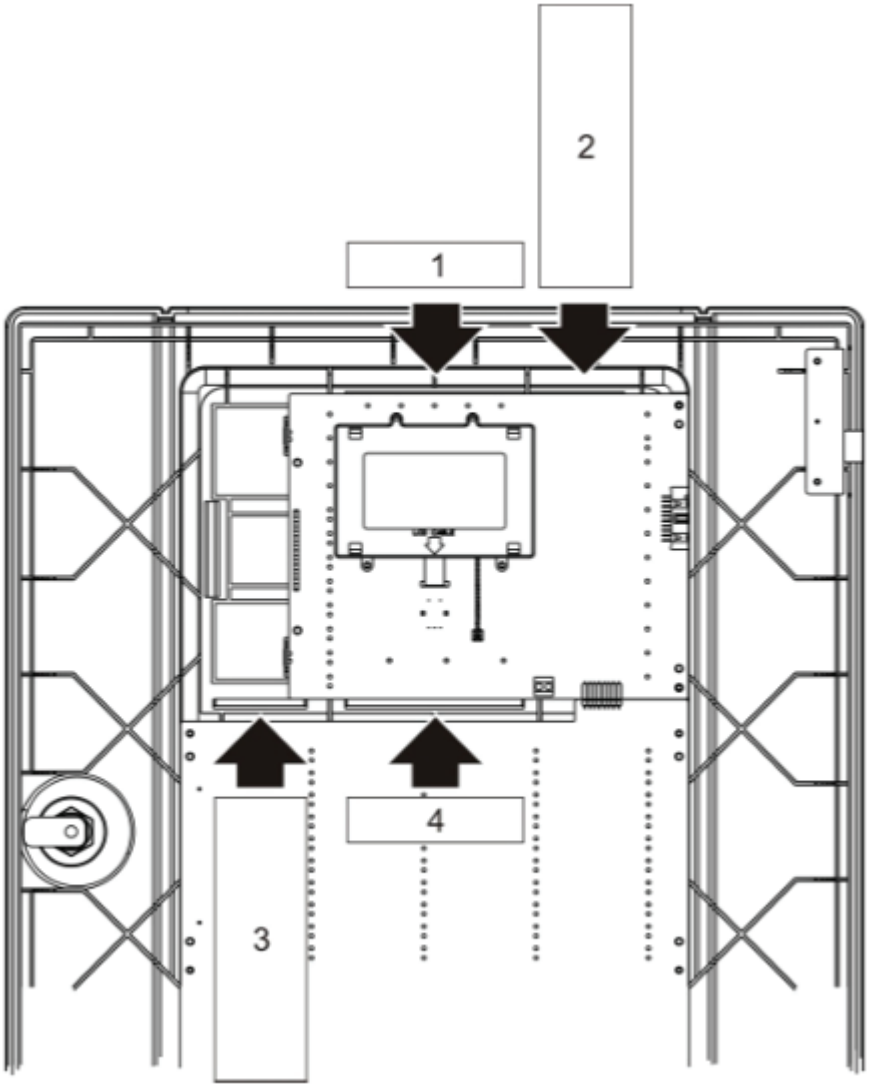
HYUNDAI
SECURITY DEVICE

Printer thermal
HYU-FA-THPRT001

User Manual

GENUINE PRODUCT OF
HYUNDAI CORPORATION



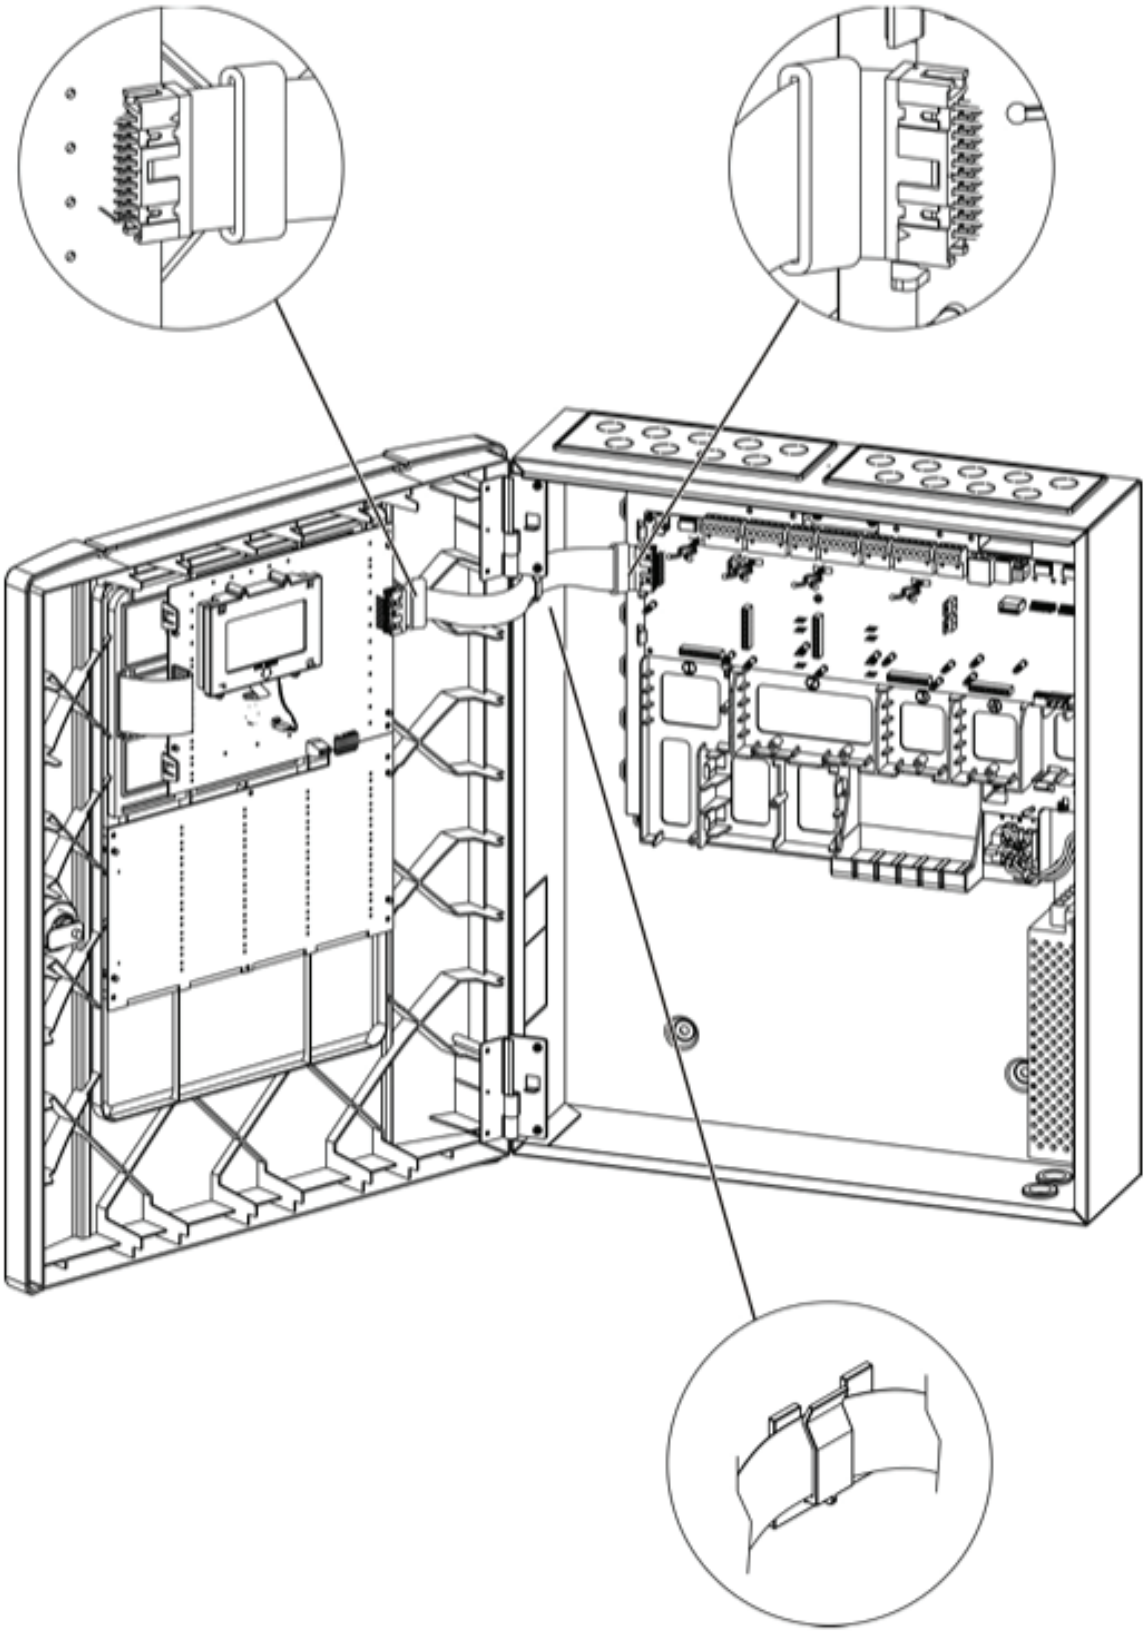
The inserts are numbered 1, 2, 3, and 4, and are inserted at the location indicated (with the printed area facing the front of the control panel). For evacuation panels, remember to add descriptions for any output groups assigned to the programmable buttons to insert 3.

Note: Different versions of insert 3 are provided for fire panels and for evacuation panels, and each is marked with the corresponding control panel product code. Be sure to use the correct version of the insert for your product.

Connecting the user interface cable

Connect the user interface cable as shown below.

Connecting the user interface cable



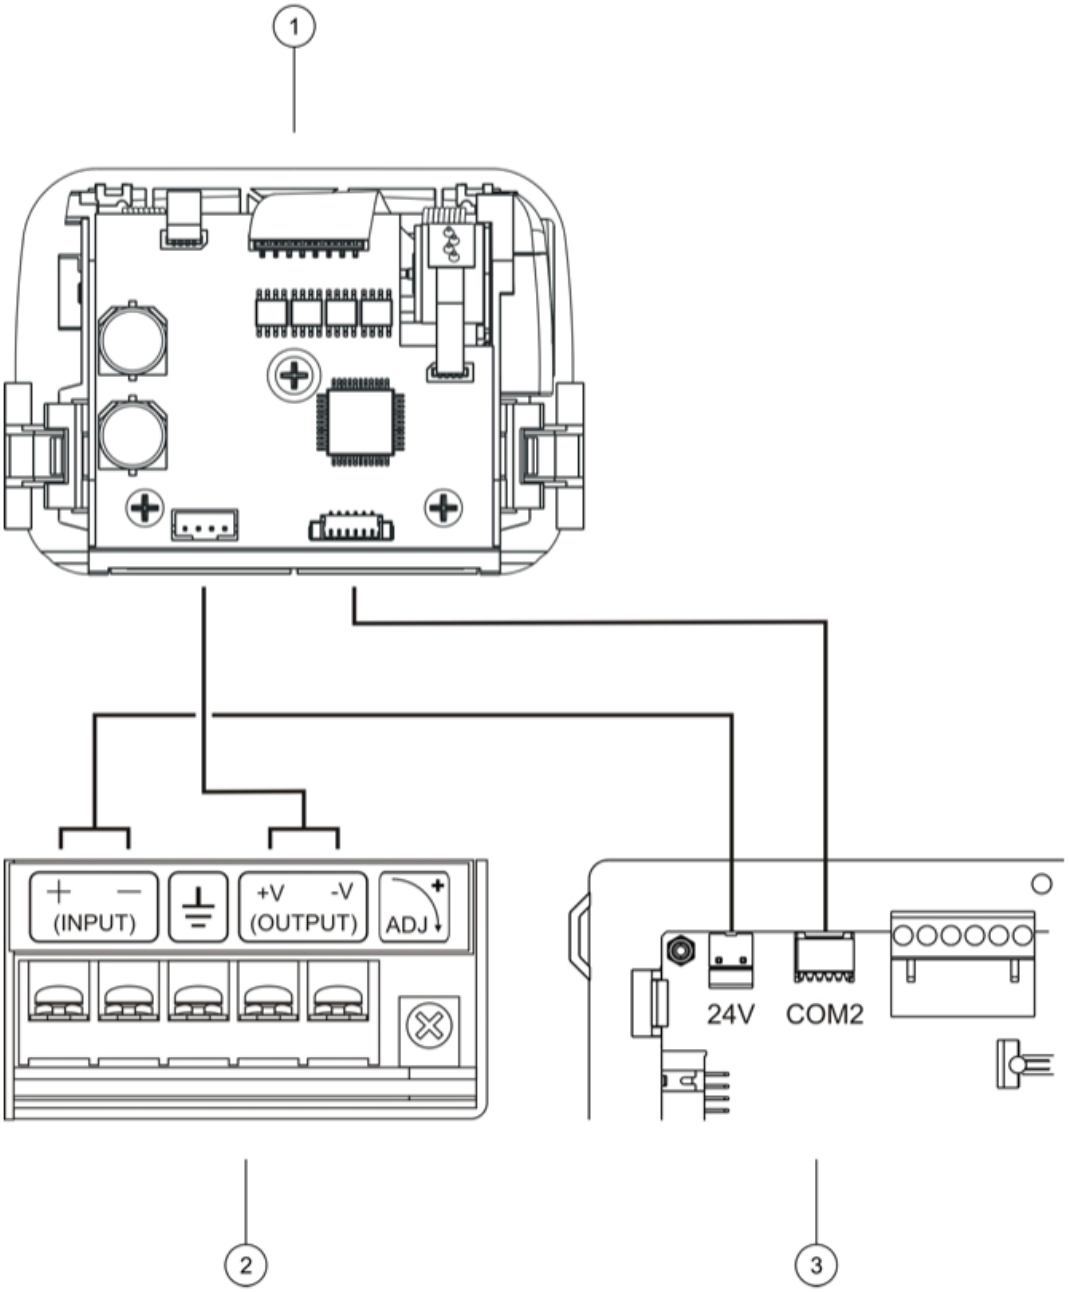
Connecting the internal printer and loading paper

This topic shows you how to connect the internal printer and load the printer with paper. See “Printer configuration” for printer configuration options.

The internal printer is only available on selected models.

Connecting the internal printer

Connect the internal printer as shown below.



1. Internal printer
2. Internal printer PSU
3. Control panel PCB

Loading paper

Load the paper for the internal printer as shown below.
